

## **ENYGO Gestational Trophoblastic Disease (GTD) & Teach The Teacher (TTT) workshop.**

Copenhagen University Hospital, RIGSHOSPITALET, Denmark  
February 5-6, 2016

### **ENYGO Report**

For the first time, an ENYGO course and workshop took place in Copenhagen, Denmark.

The first day was dedicated to the pathology, clinical presentation, surgical and medical management of the rare trophoblastic tumors. For this purpose, Dr. Christianne Lok, Prof. Leon Massuger, Dr. Isa Niemann, Prof. Sophie Patrier and Dr. N. Van Trommel – all leading international experts had agreed to participate, resulting in a comprehensive overview of the conditions. The course emphasized the importance of an international cooperation and gathering of information of these rare conditions.

The second day was dedicated to the important issue of teaching how to teach. No matter the level and experience of a clinician, teaching is essential. For this purpose, Dr. Pim Teunissen and Dr. Klarke Boor conducted an interactive workshop where students became teachers and theoretical and practical aspects of teaching – and learning – were presented and used. All participants were provided with helpful tools for teaching and practised their skills as teachers at the workshop.

With a mean score of 4.8 (0=poor, 5=excellent) in the evaluation forms, attendees confirmed the high quality of the workshops.

#### **SCIENTIFIC and ORGANIZING COMMITTEE:**

Dr. Christianne Lok, gynecologist, Center for gynecologic oncology Amsterdam, the Netherlands

Prof. Leon Massuger, gynecologist, Radboud Medical Center, Nijmegen, the Netherlands

Dr. Isa Niemann, gynecologist, Aarhus University Hospital, Aarhus, Denmark
