Email: dinceryildirim@hotmail.com , tanpekin@yahoo.com

Name of Mentor at Host Institution: Prof. Dr. med. Jalid Sehouli

Position at Host Institution: Guest Doctor

Institution (full address): Gynecologic Oncology Clinic / Charité - Campus Virchow Klinikum - Universitätsmedizin Berlin

Email: frauenklinik-cvk.charite.de

Dates of Fellowship: 1 April 2016 – 30 June 2016

Detailed description on Teaching received:

I have attended a lot of surgery as assistance everyday:

Ovarian cancer cytoreduction, upper abdominal surgery

TMMR (total mesometrial resection for cervical cancer)

Nerve-sparing radical hysterectomy for cervical cancer (open and laparoscopic),

Surgery for recurrent ovarian cancer and recurrent endometrial cancer

Sentinel lymph node biopsy for vulvar cancer and cervical cancer.

Most of operations I attended are advanced stage ovarian cancer. Most of them are very complicated surgery.

Goals accomplished :

General principals in gynecologic oncology. Preoperative assessment and postoperative follow-up.

Ovarian cancer staging. Advanced cytoreductive surgery for ovarian cancer, upper abdominal surgery.

Achievement in clinical practice:

Preoperative assessment and postoperative follow up in gynecologic malignencies.

Presentations eg. at seminar or meetings:

Research performed and outcome:

Publications:

Problems encountered with a critical evaluation of the fellowship experience as a whole:

There was no problem.

Future plan on returning to home:

I want to use all skill I gained at fellowship in my country and I want to improve my experience about gynecologic oncology.

Overall evaluation and comment of the fellowship:

ESGO Traveling Fellowship, Fellows Report, January 2014

It was very useful for me, especially ovarian cancer cytoreductive surgery. And other topics I learned: TMMR for cervical cancer. Sentinel lymph node biopsy for vulvar cancer and cervical cancer. Preoperative assessment and postoperative follow up of Gynecologic malignancies. I attended to multidisciplinary case discussion every week. I attended to clinical rounds and preoperative discussion conference every morning. The fellowship was very useful and enjoyable for me. I have learned so much surgical and clinical information, surgical experience, I will be able to use them in all my operations.

Date: 4 July 2016
