

CANDIDATE PROFILE

ELECTIONS FOR THE PRESIDENT and Vice-President 2019-2021

Name: **Andrei**

Last name: **Pletnev**

Country: Belarus

Affiliation: Department of Gynecologic Oncology,
N.N. Alexandrov National Cancer Center of Belarus

Dear friends and colleagues,

I am working at N.N. Alexandrov National Cancer Center of Belarus in Minsk, the main oncological institution in our country. I was lucky to be invited in 2012 to the ovarian cancer cytoreductive surgical team right after finishing general surgery fellowship. Gyn/onco surgery is amazing and I was in love with it from the first day. Currently I am standing at the position of medical consultant, gyn/onco surgeon and senior researcher in our department. I am professional doctor who likes to combine surgery, management of difficult clinical situations, research work, teaching process and medical projects organization.

Over the last 4 years I have been deeply involved in ENYGO activities. In 2015 I became a national representative of Belarus, but my true start related to the organization of Medical Writing Workshop in my native city of Minsk in 2016. This year I became a real member of ENYGO family, and my next step occurred in 2017 when I was lucky to be elected to ENYGO executive group.

Since its foundation ENYGO raised and evolved in a huge organization with strong educational online platforms, fellowship programs, regular meetings, wonderful masterclasses and workshops. ENYGO also has become a big family without borders where you can meet real friends, which can change your life and always move towards one common goal with you.

I'll be more than happy if I can be a part of future of ENYGO to secure best traditions and make my own contribution to the development of ENYGO already existing excellent work. I hope for your positive consideration, support and looking forward to meet you all in Athens!

Sincerely Yours,
Andrei Pletnev
