<b>Last name:</b>	<b>Madžarac</b>
<b>Country:</b>	<b>Croatia</b>
<b>Hospital:</b>	University hospital Merkur, Zagreb
<b>Department:</b>	Department of Gynecologic Oncology
<b>Current position:</b>	Gynecological Oncology Fellow

### Motivational Statement (250 words)

Dear ENYGO members and colleagues,

First of all I would like to express the gratitude for this opportunity for young people to get involved and to participate in ENYGO elections for national representative.

As an ENYGO member I had a great opportunity to connect with young as well as experienced gynecological oncologists through different events. Masterclass meetings and many other learning

opportunities were very valuable for broadening my own knowledge and skills which I could implement in daily practice as a trainee.

Connecting with colleagues through various ENYGO and ESGO projects would be an opportunity for other fellows in Croatia to overcome difficulties in their own national training. As national representative I would be very honored to help bridge that gap and help other trainees in Croatia meet people from all around Europe and further advance their own knowledge and experience.

One of the most important task would certainly be providing support for structural implementation of the new ESGO curriculum in national training programs for gynecological oncology trainees. Stronger initiative for center accreditation in Croatia and individual training certification would certainly enhance the quality of gynecological oncology practice on a fundamental level by providing more comprehensive training to our young professionals.
