<b>Current position:</b>	Surgeon

Hello,

I'm a surgeon specialized in gynaecology, practicing in the cancer center of Bordeaux, France. As a fellow of Pr D.Querleu and Dr Guyon, I've been aware for a long time to the necessity of a strong European association against cancer in the field of Gyn onco. Young French are now underrepresented in the ENYGO. With a new group of very motivated young doctors in the field of gyn onco, the SFOG campus, we think it's time for us to join the ENYGO to setup project together, upgrade healthcare in the field of gyn onco and to spread good practices to the best benefit of patients. As national representative, I want to make the link between ENYGO and our group.
