

APPLICATION FORM FOR the NATIONAL REPRESENTATIVE OF SPAIN

First name:	Félix
Last name:	Boria
Country:	Spain
Hospital:	Clinica Universidad de Navarra (Madrid)
Department:	Ginecologic oncology
Current position:	Trainee/staff

Motivational Statement (250 words)

I made my residency in Gynecology and obstetrics at Hospital Universitario La Paz (Madrid). Since the very beginning of my training, I felt that my place was at the OR and treating women with gynecologic malignancies. After my observership in MD Anderson in Houston Tx with Dr. Pedro Ramirez I decided to do my best to continue improving my skills in order to become one day a gyn-oncologist. I had the great luck to meet Dr. Chiva at Clinica Universidad de Navarra, who received me and gave me the opportunity to work with his team and do what I have always dreamt to do. Nowadays, after 1 year in the clinic, I continue enjoying each day and learning anytime I can of one of the greatest surgeons I have ever met. I consider ESGO and ENYGO a big opportunity to us young gynecologist who want to become gyn-oncologist to learn from other people and to establish a big net of investigation and collaboration in Europe. That's why, it would be a great pleasure for me to represent my country in this great community.

Sincerely,
Félix Boria
