Current position:	Ph.d, practicing oncogynecologist (highest qualification category) with 15 years of experience.

Motivational Statement (250 words)

I'm **ph.d**, practicing oncogynecologist (highest qualification category) with 15 years of experience.

From student years I took an active part in scientific research and conferences.

Since 2009 I'm a member of ESGO and ENYGO.

- During conferences, I always looked for opportunities to collaborate and learn from European colleagues. I passed the gained knowledge to my colleagues.

As a representative of Ukraine in ENYGO, my goal is:

- ✓ through the organization of international conferences, forums, trainings and discussion platforms to improve the professional and practical skills of young oncogynecologists in Ukraine, for the highest quality of medical services.
- ✓ to help ENYGO to establish a strategic partnership and cooperation among future generations of gynecological oncologists in my country and European colleagues.
- ✓ Collaborate in research between other centers of young oncogynecologists.

✓ Promote the ideas and strategies of ESGO and ENYGO, attract new members.

For me personally, as a young scientist and practicing oncogynecologist, it is strategically important to contribute to the development of Ukrainian medicine and ENYGO.
