### **Motivation Statement:** max 250 words)

I have been involved with ESGO for the last three years and am currently in the second year of ESGO Training Programme in Gynaecological Oncology. I feel that the organisation has a great structure and is making a lot of effort to share the knowledge of leading European specialists. Also, I am an active member of CEEGOG. As a resident I was an executive board member of Slovenian association of trainees (SATOG) and I would like to continue such work in ENYGO. I believe that young doctors are a crucial part of every organization. I have been personally involved in many activities organized by ESGO and I have also done a part of my training in Romania so I understand that being connected with doctors from different countries is very important in the development phase of every young doctor so if there is now a chance of helping others, I would be very happy to do it. Also, being a part of ENYGO activities would be an honour, since I really do admire all the efforts the organization is doing regarding seminars and lectures. If I am selected as a member of executive group, I will do my best and will work hard to further improve the future of ENYGO. Thank you very much for considering my application.

### **Curriculum Vitae:**

I am at the moment 38 years old. In 2010 I completed course in medicine at Medical Faculty Ljubljana, Slovenia. I finished my residency in 2018 and got a position as a specialist in gynaecology and obstetrics in University Medical Centre Maribor, Slovenia. I started my PhD the same year and in 2020 joined the training program in gynaecological oncology. Currently my focus is on clinical work, but as a PhD student I am also involved in research activities in our department and in CEEGOG projects. I believe that I am communicative, adaptive and reliable. I am fluent in English language and I also speak German, Serbian and Portuguese.
