

CANDIDATE PROFILE

Mariaclelia La Russa, United Kingdom

ELECTIONS FOR THE ENYGO EXECUTIVE GROUP 2021-2025

Name: Mariaclelia

Last name: La Russa

Country: United Kingdom

Hospital: Norfolk and Norwich University Hospital

Motivation Statement:

Dear friends,

I'm currently a trainee in Obstetrics and Gynaecology in East of England Deanery with a special interest in gynaecological oncology.

I have enjoyed Obstetrics and Gynaecology since I was a medical student, but as soon as I started my training I realised I wanted to focus on gynaecological oncology. I still remember the first time I was assisting my consultant during a debulking surgery...it was a love at the first sight!

Since 2014 I have been a member of the ENYGO family. Thanks to this community I met new friends who share with me an amazing passion and at the ESGO congress in Athens I became ENYGO UK national representative.

I really believe ENYGO is a great networking platform, which gives us the opportunity to share experiences, guidelines and protocols across Europe.

I see a great opportunity to be an ENYGO EEG, as this would provide me with the role to have a voice in the decisions and planning of future strategies impacting not only the members but also of our patients. I would like to use my enthusiasm to encourage more trainees to join the ESGO community, to promote new ENYGO projects and to offer fresh ideas aiming to improve patient care. Furthermore, this is a position will give me the opportunity to work closely with other members from different units across Europe.

See you in Prague!

Clelia La Russa
