

CANDIDATE PROFILE

NATALIA RODRIGUEZ, SPAIN

ELECTIONS FOR THE ENYGO EXECUTIVE GROUP 2021-2025

Name: NATALIA

Last name: RODRIGUEZ GOMEZ-HIDALGO

Country: SPAIN

Hospital: VALL D´HEBRON HOSPITAL

Motivation Statement: max 250 words)

I see a great opportunity to be an EEG member, as this would provide me with the role to have a voice in the decisions and planning of future strategies for ENYGOs professional careers.

I believe that I am an ideal candidate for several reasons. First, I have been committed to the field of gynecologic oncology since early in my academic career. I rotated under the mentorship of Dr. Pedro T. Ramirez at *MD Anderson Cancer Center*. The subsequent two years, I worked, as a Fellow under the mentorship of Dr. Leitao at *Memorial Sloan Kettering Cancer Center* and as a Research Coordinator at *Columbia University* with Dr. Wright.

Second, I have been working as a NATREP and ENYGO Scientific committee member during these past two years, creating an effective network among young gynaecologic oncologists, organizing courses and webinar for fellows, encouraging ENYGOs to participate in multicentre studies and spreading the ENYGO activities in order to improve our training in Spain. This is a position of leadership to help and guide my colleagues to reach their professional goals.

I am fully committed to the growth and development of innovative strategies for ENYGO, and I have new fresh and practical ideas to improve our training, impacting not only in our knowledge even more in our patients, therefore, we are responsible for making our society to grow each day with outstanding motivation in order to pursue excellence.
