

## CANDIDATE PROFILE

**Alexander Shushkevich, Ukraine**

### **ELECTIONS FOR THE ENYGO EXECUTIVE GROUP 2021-2025**

Name: Alexander

Last name: Shushkevich

Country: Ukraine

Hospital: Institute of Pediatrics, Obstetrics and Gynecology of the National Academy of Medical Sciences of Ukraine

#### **Motivation Statement:**

Dear ENYGO Election Team,

It is my great honor to have the opportunity to be a candidate for EEG of ENYGO. Wherever I live, my goal is to cure women with gynecological cancer. The way to do it properly is through strong and fruitful relationships among many colleagues around different countries in Europe and the World.

My professional career has started in Belarus. I am proud that I was a part of such a great team of professionals that works at the Gynecologic Oncology Department in Minsk. We have been able to enhance the presence of ENYGO and ESGO societies in Belarus, and as a result, improved cancer care for women with gynecological malignancies. Currently, I live in Ukraine, and I firmly believe that the best is yet to come.

As a member of ENYGO for many years, I was actively involved in many society's activities. Together with an outstanding ESGO team of experts, we established ENYGO MDTB and successfully worked on the project in the outgoing year. During my experience working with many world-class leaders in the gynecologic oncology field, I have learned the importance of synergies generations for achieving success in cancer treatment, and ENYGO is a unique platform that allows us to do it in the best way.

Should I be elected to the EEG, I will strive to assist the leadership of ENYGO in representing the societies in all parts of Europe and the World!

Many thanks for considering this application.

Yours sincerely,

Alexander Shushkevich

## **Curriculum Vitae:**

**Alexander Shushkevich, MD.**  
(<https://orcid.org/0000-0002-9769-7240>)

### **PRESENT TITLE AND AFFILIATION**

Gynecologic Oncology surgeon, Research fellow  
Institute of Pediatrics, Obstetrics and Gynecology of the National Academy of Medical Sciences of Ukraine

Kyiv, Ukraine

### **CITIZENSHIP**

Belarus

### **HOME ADDRESS**

Voskresenska st. 14b/51  
Kyiv, Ukraine  
Cell: (093) 385-47-40

### **OFFICE ADDRESS**

Platona Maiborody st. 8  
Kyiv, Ukraine

## **EDUCATION**

### **Degree-Granting Education**

1. Bukovina State Medical University, Chernivtsi (Ukraine) 2006-2012

### **Postgraduate Training**

1. Clinical Residency, General surgery, N.N. Alexandrov National Cancer Center of Belarus, 2012-2013
2. Post-Residency Training, Surgical Oncology, Belarusian Medical Academy of Postgraduate Education (Belarus) 2015
3. Fakultní nemocnice Královské Vinohrady | FKNV · Department of Gynecology and Obstetrics
4. Levine Cancer Institute Carolinas HealthCare System Charlotte, North Carolina  
**Mentor** – Jubilee Brown, M.D., 2019
5. Obstetrics and Gynecology, Salzburg Open Medical Institute Seminar, (Austria) January 19-25, 2020

## **PROFESSIONAL EXPERIENCE**

1. Gynecology Oncologist, Research Scientist N.N. Alexandrov National Cancer Center of Belarus, Minsk, 2013 – 2021
2. Gynecologic Oncology surgeon, Research fellow Institute of Pediatrics, Obstetrics and Gynecology of the National Academy of Medical Sciences of Ukraine Kyiv, Ukraine, 2021 – present

## **HONORS AND AWARDS**

1. Best scientific work of the year, finalist, Minsk 2019
2. IGCS scholarship and mentorship programs, Winner, 2019

## RESEARCH

### Grants and Contracts

#### Protocols

##### Funded

1. Sub-investigator, A Phase II Study of A Randomized Trial of Cvac (Autologous Dendritic Cells Pulsed With Recombinant Human Fusion Protein [Mucin 1-glutathione S-transferase] Coupled to Oxidized Polymannose) as Maintenance Treatment in Patients With Epithelial Ovarian Cancer (EOC) in Complete Remission Following First-line Chemotherapy (A) and Patients With EOC in Second Remission (B) 2013-2015
2. Lead Sub-investigator, A Phase III of a randomized, double-blind, phase 3 comparison of platinum-based therapy with TSR-042 and niraparib versus standard of care platinum-based therapy as first-line treatment of stage III or IV non-mucinous epithelial ovarian cancer, 2018-present
3. Sub-investigator, A Study to Evaluate Dostarlimab Plus Carboplatin-paclitaxel Versus Placebo Plus Carboplatin-paclitaxel in Participants with Recurrent or Primary Advanced Endometrial Cancer (RUBY), 2019-present

##### Unfunded

1. Lead Sub-investigator, A Phase III of the prospective trial - role of HE4 in the Follow-up of Advanced Ovarian, Fallopian Tube and Primary Peritoneal Cancer 2016-2021
2. Sub-investigator, A phase III of FERTISS Fertility Sparing Surgery in cervical cancer patients outside controlled trials 2018-2021
3. Principal-investigator, Sentinel Lymph Nodes Mapping in Endometrium Cancer (SentEC) 2019-2021
